Technical Information

JUPITER

Capacity	6kg	15kg	30kg	6/15kg	15/30kg	12kg	30kg
						(6.000d)	(6.000d)
Division	2g	5g	10g	2/5g	5/10g	2g	5g
Minimum Load	40g	100g	200g	40g	100g	40g	100g
Maximum Tare	3.000g	9.995g	9.990g	3.000g	9.995g	3.000g	9.990g

Main

Retail counter scale with thermal labeller, automatic repositioning to Zero, Zero key, Possibility to print under minimum load according to the calibration standards. Interconnection of up to 10 equipments via Ethernet, all models in the range compatible on the same network.

RS232 communications port.

Connection via XDSL.

Communication with PC and software update via RS232 and Ethernet.

Display

Backlit alphanumeric display with high contrast on both sides of buyer and seller with a 7 segment line for Weight, Price and Amount and 16 digits and 14 segments alphanumeric line for product description and menu options.

98-key keyboard with 49 direct PLUs and 49 function keys. Possibility of 10 DIRECT TABLES programming for a quick access to PLUs, 10 active salesclerks. Stand-by key that disconnects the equipment but leaves the communication server active.

Direct keys for printing, total deleted, programming and PLU listings.

Programmable PLU Data

Article price, up to 1025 characters description of product, 250 characters fixed text, family, packed date, expiration date, "best by" date, bar code, internal code and PLU, tare, VAT, stepped price, article sales offer, direct PLU, EAN code....

Memory

ARM 4 MB RAM memory microprocessor, data base (standard version):

- Number of tickets: 10.000
- Ticket lines: 20.000
